Memorandum To: Heritage Park Residents

From: J. Wayne Felton
Executive Director

Subject: Heritage Park Redevelopment Update

Raleigh Housing Authority (“RHA”) wishes to provide our valued Heritage Park residents information about the proposed redevelopment of your community. It is our goal to be transparent and provide you with the information and opportunity to participate in this process.

Earlier this week, RHA participated in a work session with the Raleigh City Council to speak and present information about redeveloping Heritage Park. A recording of the meeting is on the City’s website. A copy of the letter that was submitted to the City Council is being provided to you. It is our sincere hope that you will take a moment to read what was presented so that you can stay informed.

Please be assured that no one is being asked to relocate right now due to redevelopment. All residents will be given written notice of relocation at least 90 days prior to relocation time. As for now, we encourage Heritage Park residents to learn about the process and let staff know your questions and concerns.

We will continue to reach out to residents through surveys, verbal and written communications, and resident meetings. We sincerely wish for you to be engaged, involved, and informed on the redevelopment process and your rights as residents. It is essential that residents have access to accurate, valid information as there is misinformation about Heritage Park circling around.

If you have questions or concerns about Heritage Park, please submit them: by mail to 900 Haynes Street, by email to heritageparkinfo@rhaonline.com, or by phone to (919) 508-1304. All communications can be submitted anonymously if desired and will be kept confidential.

Please look for future meeting notices around your community and on RHA’s website, www.rhaonline.com. Residents and RHA have the opportunity to ensure a strong, thoughtful community remains at Heritage Park for those in need of affordable housing. We look forward to working together as we envision our future.
